JEFFREY S. RAIKES SCHOOL OF
COMPUTER SCIENCE & MANAGEMENT

WHAT TO EXPECT AS A RAIKES SCHOOL STUDENT

From enrollment to graduation, the Raikes School provides students with resources, community, industry connections and one-on-one mentorship every step of the way.

Hands-on Curriculum

1st & 2nd Year: Students are introduced to important business, computer science, communication and leadership concepts.

3rd & 4th Year: Students participate in Design Studio & advanced business courses, working on real-world solutions with industry professionals and laying the groundwork for successful careers.

Living and Community

Most Raikes School students choose to live in the Kauffman Center, a beautiful building in the heart of campus that serves as the home of the Raikes School and our vibrant academic community.

► Collaborative Living and Learning Environment

Our suite-style rooms are housed in Kauffman above our collaborative learning spaces, classrooms and staff and faculty offices.

► Big Campus, Small Community

Students enjoy the benefits of living and learning in a tight-knit community at the epicenter of our Big Ten campus.

► Room and Board Scholarships

Students selected for the Raikes School may receive scholarships covering a portion of housing and meals (for Kauffman Center or other Raikes School approved housing) for up to 8 semesters.

Design Studio

A two-year capstone experience in which student teams partner with a company on a year-long project to develop a business solution. The project encompasses the full product development lifecycle, including design, implementation and testing.

Students learn how to:

- Create innovative applications and processes to solve real-world problems.
- Develop strong project management, leadership and teamwork skills.
- Work alongside industry leaders and network with key contacts from top local and global companies.
- Make a direct impact on communities and organizations, all while gaining valuable experience that will set them apart in their careers.

Past sponsors include Microsoft, Kiewit, Hudl, Nelnet, Buildertrend, Mutual of Omaha and more!

COMPETITIVE RAIKES SCHOOL APPLICANTS ARE:

Top of Their Class

Future Leaders in Tech

Academically driven, maintaining a 3.8+ GPA

Intellectually curious and willing to be challenged

Passionate about Computer Science and Business

Scoring 30+ on the ACT or 1400+ on the SAT

Application Process and Timeline

1

Apply to Nebraska

Visit Common App or admissions.unl.edu to apply beginning August 1.

2

Apply to the Raikes School Through the Honors Application in MyRED

Complete the application by November 15. Late applications are only accepted if space is available.

3

Prepare for Interview

Interviews take place in January and February and are a half-day, on-campus experience for selected candidates.

4

Raikes School Selection

Selected students receive offers in February along with notifications of a Raikes School scholarship award.
